

Premium equipment – putting control back in your hands

Versatile equipment compatible with
your preferred smart home device

We are putting control of your equipment back in your hands. Our YORK® Affinity premium equipment can now interface with any thermostat device, making it more versatile than ever.

Of course, our Hx™ and Hx™3 thermostats remain your go-to for optimized performance. However, our premium variable capacity systems are now compatible with your preferred smart home devices, courtesy of our new Universal Thermostat Adapter.
